THE DIRECTOR OF
CENTRAL INTELLIGENCE

Deputy Director for National Foreign Assessment

13 February 1981

NOTE FOR: DCI

THROUGH : DD/NFA

SUBJECT : Estimates Program for 1981

Attached is the information you requested about our estimates program for the year.

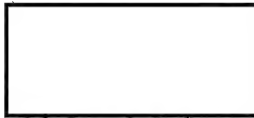

The first document is the latest weekly listing--distributed routinely to a wide variety of internal CIA and external consumers--showing the status of the 30 estimative papers that are currently under way.

The second document lists, by priority and by world region, our proposed estimates program for the entire year. We usually develop these listings in consultation with the various NFAC production offices and with the other NFIB agencies. The plan is revised and updated every six months. As the addendum to the document explains, the current listing is not yet complete because we need to negotiate further with other NFIB member agencies on several proposed papers.

The estimates plan plus addendum show a total of 68 papers. In practice, some of these

will die on the vine, others will have to be delayed for various reasons, and still others will be added during the year at consumers' requests.
